Comments/Arguments

As to the drawing objection, it is noted that no remaining claims include the feature of an "Electrical Power waveform." Accordingly, the objection should be withdrawn.

As to the specification objection, it is noted that the offending paragraph has been corrected. Accordingly, the objection should be withdrawn.

Claim 20 as amended no longer includes an improper dependency, accordingly the objection thereto should be withdrawn.

Claim 6 has been cancelled, according the rejection thereof under §112 is now moot.

Claims 4, 7, 16, 17 and 20 have been placed in independent format. Insomuch as these claims have already been indicated as having allowable subject matter, it is submitted that they are ready for allowance, along with claims 2, 3, 5, 13-15 and 18 that depend respectively therefrom.

CONCLUSION

For the reasons detailed above, it is submitted that all remaining claims in the application are now in condition for allowance. The foregoing comments do not require unnecessary additional search or examination.

In the event the Examiner considers personal contact advantageous to the disposition of this case, he/she is hereby authorized to call John P. Cornely, at Telephone Number (216) 861-5582.

Respectfully submitted,
